diers in Juarez, Mexico, left at 7 o'clock this morning for Pacheco, Mexico, the Mormon colony raided by Indians Thursday afternoon. The soldiers were under Colonel Aguilagor, who will command also the troops being rushed from other military posts.

Complete details of the raid are not yet at hand. The messengers who went out from Casas Grandes to learn the particulars will not return before tonight and the telegraph lines operate only in the day time, so further details cannot be had at present.

Doubt as to Details.

However, it is officially announced by Colonel Aguilagor, before he left, that the Indians have committed many depredations. The official report states that twelve Indians were killed outright and several Mormons were wounded. The names of the Mormons were not given the officials in Juarez, and they could not be learned from other sources. Pacheco colony is sixty miles from

the railread terminus at Casas Grandes and few details can be had. In one case and few details can be had. In one case it is reported by citizens coming from Casas Grandes that a row occurred twenty miles from there in which two Indians were killed and several Mormons slightly wounded. It appears that several difficulties have occurred with the Indians, many of whom are scattered all over the mountains.

The report that a number of both Indians and Mormons were killed at Pacheco is denied by railroad officials in Juarez, but the army officials have reports confirming the story.

Reservation Heavily Guarded.

The San Carlos reservation is in Southern Arizona from where the Apaches came in poorly guarded and the Indians can leave at will. It was learned her today that only nine cavalrymen are guarding 3,000 Indians. Ten days age the Mexican authorities were notified that the Indians were growing restless and troublesome and they were warned to keep a lookout. NO WORD AT CHURCH OFFICES Some Are Inclined to Discredit the Report.

Early yesinvolved in the outbreak. Early yesterday messages were sent out from the church offices in this city to the men at the head of the settlement in Pacheco, Mexico, but up to a late hour last night no mesponse had been received. It was the opinion of the church officials here that the rumor of the Indian outbreak was false. This opinion is based on the helief that had opinion is based on the belief that had anything of so serious a nature taken place word would have reached this

President Joseph F. Smith left here for a visit to this settlement some days ago and it was thought that he would reach Juarez some time last night. In any event he would not be near the scene of the disturbance for some days yet and no anylety was felt on his acvet and no anxiety was felt on his ac

Moses Thatcher, who is heavily interested in the Mormon settlement in Mexico where the trouble is said to

The Mexican authorities in Juarez consider the situation grave as the Apaches are now scattered over the country where there is no means of communication.
